Miscellaneous

TAMU Email

It is your responsibility to read your TAMU email daily! Please use your TAMU email when contacting us so that we can verify that it is you. Read all emails we send you completely and carefully. We know that you receive numerous emails daily from different sources, but you are responsible for reading everything sent from us. We will send out emails regarding registration, job fairs, RPTS merchandise, special events, etc.

Force Requests

You can submit a force request for any RPTS course if it is closed when you are registering. You will not hear back from us because we get 200+ requests. You will either see the course show up on your account or you will not. We go over requests the month before classes begin. We cannot force students into non-RPTS courses. You will have to contact those departments about their force request policies.

http://rpts.tamu.edu/current-students/force-request-form/

Pre-Registration

We put a registration block on all RPTS students every semester. This requires you to meet with us during a specific period of time to go over classes. You will receive an email from us mid-semester, every semester telling you when to start your required advising appoints.

Degree Planner

The Undergraduate Degree Planner is a course planning tool designed to facilitate the timely completion of your degree at Texas A&M University and to assist in planning the courses required to fulfill your degree program requirements. To start using the Degree Planner, log into Howdy, click on the My Record tab, and find the Undergraduate Degree Planner channel on the right column.

You must submit your degree planner by every September 30th until graduation.

Title IX Training Required

As we find ourselves settling in for another semester of classes and university life, we continue to bring to your attention an issue that persists in capturing the attention and concern of college campus communities across the nation—Sexual Harassment and Sexual Violence. Haven (undergraduate students) and Haven+ (graduate/professional students), the EverFi internet modules focused on sexual violence, dating violence, domestic violence, and stalking are currently required for all Texas A&M University students. Part of being able and ready to assist a fellow Aggie comes from an understanding of the issues surrounding behaviors associated with sexual harassment and sexual violence. As a result of this need for education, and a desire to work towards a safer community for all members, TAMU is requiring all incoming students to engage in our online education program called Haven. You are asked to complete this education in two parts: pre- and post-education. After an intersession of 30 days, you will receive an email notification to complete Part 2.

You must complete this before preregistration in your first semester at TAMU.
