(VACCI) NATIONS OF THE WORLD

The WHO’s database of vaccine requirements covers 193 countries. It does not have any information on enforcement or actual vaccination rates. Below, the map is colored according to the number of distinct vaccine antigens required, at least in part, by each country. The per-country average is a little over 10.
COMMUNICATION AND GLOBAL MEDIA

• Multimedia Monitoring System (M3S)
• Translates and analyzes global media in real time!
