Register for a New Student Conference
Accept your offer of admission to Texas A&M University by registering for a mandatory New Student Conference (NSC).

NSC fees can be deferred if you used an application fee waiver for the Texas A&M application for admission. NSC fee deferral means the fee will be added to your tuition bill. You may choose this option online during NSC registration allowing you to register without making a payment. Your conference fee is nonrefundable.

Spring Admits
Your two-day conference will be held in early January.

Summer and Fall Admits
NSC dates have been set for late May-August.
- Summer admits planning to enroll in the Summer 1 term should register for the first May NSC date—if this date is full, please submit an NSC appeal in AIS so that we may review your file.
- For transfer students who wish to have a conference that involves a more extensive orientation experience, the freshman and transfer hybrid conference held June 16-17 is a good option.

Math Placement Exam
The Math Placement Exam (MPE) is a multiple-choice, online examination that helps your academic advisor determine which math course you should take to ensure academic success in your major. This exam does not result in college credit.

Transfer students do not have to take the MPE unless they are planning to take MATH 151, 171, 147, or 142 at Texas A&M. For students who plan to take MATH 151, 171, or 147, a prerequisite restriction will prevent you from enrolling in these courses unless you have credit for MATH 150 at Texas A&M University or an appropriate score on the MPE. For students who plan to take MATH 142, you must have credit for MATH 140 or an appropriate score on the MPE to register for the course. Please check with your Texas A&M advisor to determine if you must take the MPE before enrolling.

To take the MPE, sign on to howdy.tamu.edu, Applicant Tab and follow the instructions. Online review material is available to help you prepare for the exam. Be prepared to spend the full 90 minutes taking the exam. If you experience any technical difficulties, please contact the Department of Mathematics at mathassessment@math.tamu.edu.
