# Four Year Layout

## Human Resource Development Catalog 202431

This degree plan has been laid out showing students the number of hours they should take each semester in order to complete the degree in four years. This is a suggested plan; students may opt to take their courses differently based on their individual situation. Students should use this document in conjunction with the curriculum spreadsheet, a copy of their degree plan, and meeting with their academic advisor when scheduling courses each semester. Students should be mindful that they need to complete all of the required prerequisite courses and meet classification requirements before they will be allowed to take certain
