REGISTRATION TO DO LIST

Using the REGISTRATION WORKSHEET in Howdy, map out additional courses, keeping your pre-registered coursework in mind (if you intend on keeping the courses: they will show in red-pink on your worksheet)

> When making your schedule, check to see if:

- > Each class has enough available spots (if <5, find an alternative section as backup)
- > Each class fulfills a degree requirement (*attributes*)
- > Each section of each class doesn't have restrictions; if so, you pass those restrictions
- > You have fulfilled any prerequisites required
- > No class times conflict the graphic scheduler (bottom left of the screen) will be helpful for this

Save your Registration Worksheet and have it prepared to show the advisors when we come back after the break.

Be sure to have backups and more backups. If a class is full, you need to be able to move on immediately!

Today's Registration Time 2:30 PM

• Our goal today: everyone leaves with <u>A</u> Fall schedule.

- Today's schedule may NOT be your **final** Fall schedule.
- We will help you get registered for your desired number of credit hours, and then make adjustments as we near Fall.

Because of the environment of online registration, we will not be able to do more than troubleshoot registration problems and answer basic questions: **detailed**, **individual questions will be addressed in academic advising meetings after your NSC**.
