Online 50% Rule

All College of Education and Human Development Degrees are traditional face-to-face bachelor's degree programs. Since these are not distance education programs students cannot take more than 50% (60 credit hours) of their required courses online. This applies to Texas A&M University coursework and does not include courses taken at other institutions. The Texas Higher Education Coordinating Board (THECB) rules that no more than 50% of courses can be taken online if the program is not approved to be offered online as a distance education program.
